Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in reply to an amendment filed on April 30, 2007. Claims 1-22 are pending.

Response to Arguments

2. Applicant's arguments filed 04/30/2007 have been fully considered but they are not persuasive. Applicant argues that the art on record fails to teach generating a proxy key based on a public key corresponding to the selected recipient. Examiner disagrees.

3. Examiner would point out that, Wright (US 6,084,969 teaches encrypting original document with a session key to create an encrypted document [column 5, lines 21-22 and column 7, lines 12-13]. Wright further teaches encrypting at the document at the proxy server using the private key (i.e., proxy key) of the proxy server [column 14, lines 23-27]. It is understood by the examiner the private key of the proxy server which is based on the public key of the proxy server corresponds to the selected recipient (Note that the public key of the proxy server correspond to unique public keys of pagers (i.e., senders/receivers), and the database is accessed according the user identification number of the sender and therefore the public key corresponds to the selected recipient and the proxy key (private key) is retrieved (i.e., generated) indirectly based on the user identification number, see column 11, line 65-column 12, lines 5).

4. In page 2, 2nd paragraph of the remarks, applicant further argues that "proxy keys it generates may be published ... uses the proxy key must be performed in private as well"

Art Unit: 2135

5. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "proxy keys it generates may be published ... uses the proxy key must be performed in private as well") are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). Examiner asserts that the art on record teaches the claim limitations and therefore the rejection is respectfully maintained.

Claim Rejections - 35 USC § 103

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

7. Claims 1-8, 10-20 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wright et al. (US 6,084,969) in view of Jakobsson (US 6,587,946).

8. The rejection is being applied for the same reason as set forth in the previous office action, pages 2-9.

9. Claims 9 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wright et al. (US 6,084,969) in view of Jakobsson (US 6,587,946) and further in view of Irish Times "Encryption Technology to Thwart Computer Hackers System Should Protect Security of E-Commerce" (City Edition).

Art Unit: 2135

10. The rejection is being applied for the same reason as set forth in the previous office action, pages 10-12.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
